

innex Omni

360° Freedom. Tailored to You.

Innex Omni combines advanced AI-powered audio and smart video tracking to create smarter, smoother meetings that help everyone stay seen, heard, and fully engaged.

Beyond Detection: Recognize, Track, and Engage in 360°

Featuring a high-resolution camera and AI chips for both audio and video, Innex Omni delivers sharp images, clear sound, and intelligent tracking for smarter meetings.

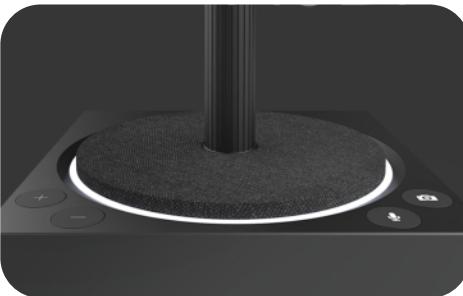

8MP Camera

Get clear video and the best view for any meeting.

Pan the View

Press and hold the button to smoothly pan the view.

Memory Mode

Store and recall user's preferred settings.

Stay Privacy

Easily cover the camera lens for privacy when not in use.

2-Way Noise Cancellation

Reduces background noise from both sides of the call for better clarity.

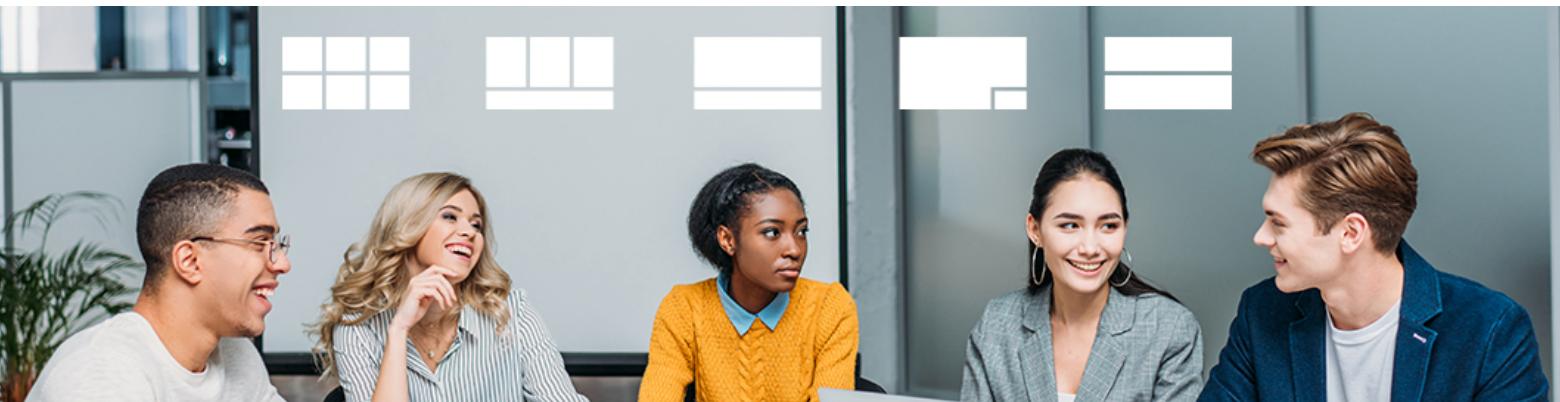

Just One Click

Switch modes, adjust views, and manage settings freely.

AI-Driven Video Modes : Engaging, Adaptive, Intelligent.

Omni features smart AI modes like Spotlight, Picture-in-Picture, and Focus Zone—designed to keep attention where it matters and elevate every meeting.

Spotlight Mode

Freely pin any participant, and the camera will seamlessly follow their every move.

Picture in Picture

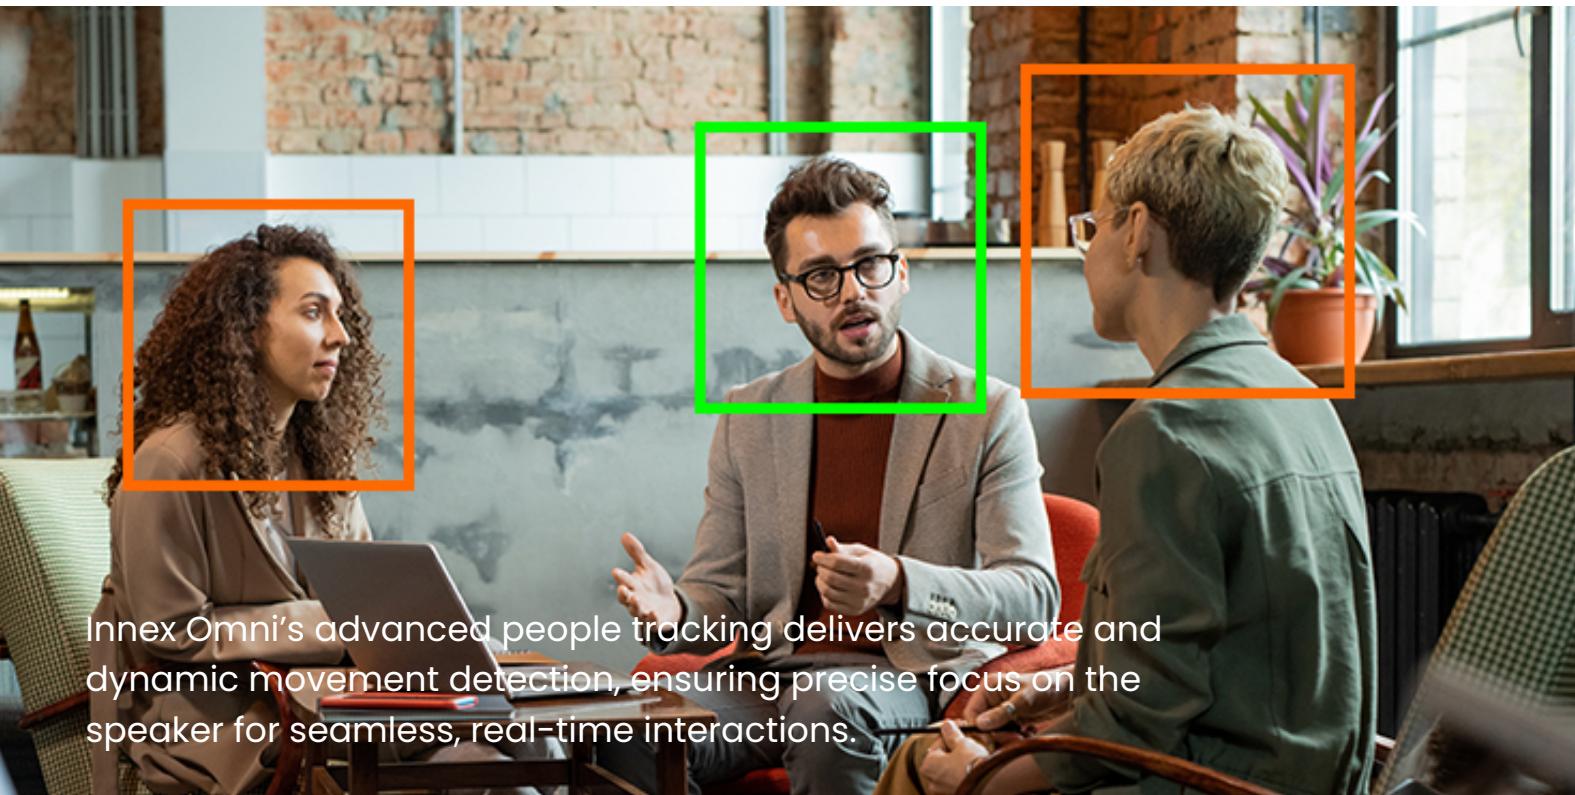

Easily pin your presenter and take full control of the main view with simple zoom and direction adjustments.

Focus Zone

Enhances voices within a customizable area—90°, 135°, or 180°—while reducing sound from outside to keep conversations clear and distraction-free.

Switch It Up. Stay in the Spotlight.

Innex Omni's advanced people tracking delivers accurate and dynamic movement detection, ensuring precise focus on the speaker for seamless, real-time interactions.
