Why Choose the CT Series?

Stunning Visuals
QLED technology brings a heightened level of brightness, color accuracy, and detail, ensuring your presentations look crisp and professional.

Effortless Connectivity
The Connect Pro Button wirelessly shares your screen to the CT display and uses the CT display's camera and microphones—no cables needed.

Dynamic Collaboration
The CT display with Connect Pro offers real-time interaction through touch-back control and MPP support, making meetings more engaging and seamless.
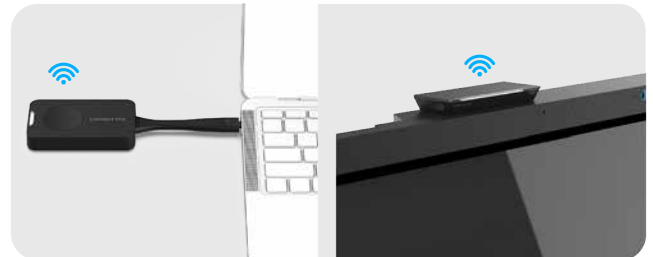

Connect Instantly, Present Seamlessly!

Empower your team with the CT Series, designed for effortless engagement and seamless presentations. Featuring an integrated AI camera, microphones, speakers, and Connect Pro, it enables productive hybrid meetings and blended learning. With just a click, connect your laptop, share your screen wirelessly, and access the AI camera and 8-mic array, all without any cables.

Connect Pro

Plug the Connect Pro Button into your laptop's USB-C port and connect it to the receiver via Wi-Fi for seamless screen sharing. No cables are required, click for wireless presentation.

Integrated AI Camera and Premium Sound Quality

Premium built-in 8 microphones array and powerful speaker for full-room coverage.
120° Wide-angle camera featuring AI video modes including smart gallery, speaker tracking, and auto-framing.

Gallery	Autoframing	Speaker tracking

Collaborate and Create with Windows Ink

Effortlessly collaborate by annotating, marking up, and highlighting content on platforms like Windows Whiteboard, Office365, or Windows Ink. The intuitive touch functionality allows you to use your fingers, the included pen for precise writing, and even your palm as an eraser.
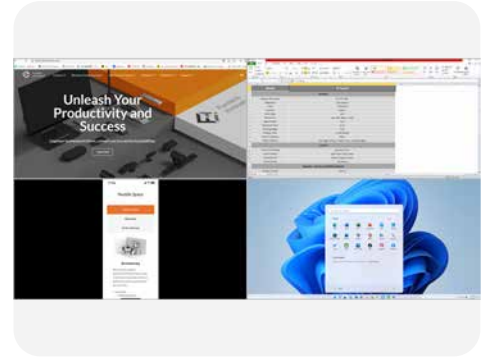

Ultimate Wireless BYOD Solution!

Experience seamless collaboration with Connect Pro, AirPlay, Miracast, and Chromecast for effortless screen sharing from any device. With multi-screen sharing, multiple users can present simultaneously, enhancing teamwork and boosting productivity.

Plug and play Connect Pro Button

Airplay/ Miracast/ Chromecast

Multi-Screen Sharing

Wireless Conferencing with Camera Streaming

Wirelessly access the built-in camera and 8-microphone array from your laptop with high clarity using the Connect Pro Button or our software. Effortlessly integrate all your conference call software for enhanced collaboration, making presentations and video calls smoother than ever with seamless connectivity and stunning visuals.

Security Meets Convenience

With the bundled Connect Pro dongles, you can wirelessly display content and data directly from your laptop in seconds. This eliminates the need for last-minute file transfers and reduces the risk of cloud drive password leaks when typing on an on-screen keyboard. Plus, it helps prevent unauthorized breaches by ensuring you don't forget to log off before the next user accesses the system.

Touchback Control with Microsoft Pen Protocol Support

Screen sharing with the Connect Pro Button, backed by MPP protocol support and touchback control, guarantees compatibility with Microsoft Office Suites, Whiteboard, OneNote, Edge and more.
