

ACT-580TR 5 GHz Digital Recordable Transmitter

Features

- Newly designed compact and lightweight housing for easy wearing.
- The panel integrates a power switch and a backlit LCD for easy operation and clear view of all operating information.
- Records up to 48 kHz / 24-bit WAV format with uncompressed digital sound quality, 123 dB ultra-high dynamic, low noise floor, low distortion, and no need to worry about reception interruption and interference.
- It can be programmed to start recording when the power is switched on, and the built-in uninterrupted clock provides full-time recording backup function.
- Built-in microSD memory card slot.
- The AF input sensitivity can be digitally set from 0 to 36 dB, and make appropriate gain adjustments through observing the signal strength indicator.
- The world's first ACT™ function provides precise and rapid frequency sync to the receiver.
- The high dynamic range audio input prevents saturation distortion and matches up low and high input impedance.
- Mute button and remote-control jack allow quick setting of MUTE function.
- The patented battery compartment can be inserted with two AA-type batteries or one Li-ion rechargeable battery, charging via USB Type-C with the foolproof and safe charging circuit.
