

MA-708 Portable Sound System

Premium Portable Audio System for Medium Events

The Future Benchmark

MIPRO, the worldwide leader in portable wireless public address technology, introduces the new MA-708. The MA-708 is compact, lightweight, powerful and can be used almost anywhere. MIPRO MA-708 is the benchmark by which all other portables will be measured.

Key Features

- Extremely rugged design delivering a 170-watt clear and powerful sound for crowds up to 1,000
- Class-D amplifier drives 1" titanium compression driver and 8" woofer speakers
- Up to 4 optional plug & play diversity receiver modules and CD / USB player with remote control
- Industry's easiest and fastest channel set-up using MIPRO AutoScan and ACT sync technology
- Industry's only MTM-90 wireless interlinking transmitter option to interlink multiple MIPRO MA-708 portables wirelessly to extend transmission range and expand coverage
- Master Volume Control can be manually controlled or wireless via an innovative, industry's only ACT-3Hr Handheld Transmitter Microphone instead of a separate control
- Retractable handle and sturdy wheels for easy transport
- Active limiter – keeps sounds clean when driven hard
- A voice priority feature that mutes the music when mic is used
- Echo effect control so singers sound fuller and richer
- Built-in storage compartments for 2 wireless handhelds or body transmitters
- Line-input for external MP3 / CD player, output for external recordings
- A smart 4-segment battery meter for accurate battery reading and charging status
- Operates up to 8 hours on a single charge, or plug it in for continuous use
- Suitable for tripod, floor or desk mount
- Weights only 16 kg / 35 lbs – loaded

Ideal applications include

- Schools, church services and weddings
- Corporate presentations, seminars and meetings
- Sporting events, press conferences, auctions
- Shopping centre presentations and promotions
- Aerobics / Fitness, social clubs, hotels, rallies
- Military, law enforcement, fire / rescue events
