

MDF-CON6

Order No.: 1000233

PRODUCTINFOS

MondeF control panel/system controller

with 6 buttons, compatible with the AS500 series of switches from Jung. When connected to an existing network, the controller will be identified automatically via the MondeF software and will be integrated into the network. The controller features 6 programmable buttons. The button functions can be adjusted individually via the MondeF software. Supplied with logos for labelling individual buttons for the most frequently used functions. Including blank MONACOR inlay. RJ45 PoE jack for power supply and network connection.

MondeF control panel/system controller,

for flush mounting.

- Supplied with inlay 'MONACOR' and various logos for labelling button functions
- Supplied w/o matching mounting frame (e.g. Jung AS581) for wall mounting. Please order separately depending on use and application
